FELI
CLASS OF 2024

FELI2024.WEEBLY.COM

About FELI

The Florida Engineering Leadership Institute (FELI) is a leadership program that puts training into practice. The program was created to transition engineering professionals into community professionals and leaders within our societies, communities, and workplaces. FELI enhances the leadership skills of its participants and sets out a clear pathway to put these skills into practice serving our profession and our communities. FELI also provides networking across the current and past classes, serving as an outreach group to business and community leaders.

FELI runs from November through August and consists of six sessions held in key cities throughout Florida. Each session focuses on a different aspect of leadership, ranging from development of personal leadership skills to team building, through interactive sessions and first hand accounts from experts in their respective fields.

Class of 2024

This year, 40 professional engineers are honored to build on the FELI Program legacy, accepting the challenge to transform from engineering leaders into community leaders and to give back to our communities across Florida.

Feeding the Mind

**FLORIDA
CONSTRUCTION CAREER DAYS**

STEM Outreach to Florida Schools

In an effort to partner with schools, our FELI Class will be working directly with teachers and students in the classroom to support the AASHTO STEM Outreach Solutions Curricula, enhance the teachers' lessons, and mentor students. This will include working with our Construction Career Days partners to further expand the opportunities for outreach with this program.

FELI Government Scholarships

Our class is committed to raise \$10,000 toward expanding the FELI program to government public sector employees within the engineering field.

Feeding the Body

Feeding Florida Local Food Banks

Nearly 16% of Florida's children face hunger. A lack of access to healthy food can damage a child's ability to learn and grow. To fight this issue, the FELI Class of 2024 will support local food banks across Florida. We have committed to volunteer our time during each session and to donate a portion of the class funds to each local organization that we visit.
